## Dear colleagues

On behalf of the Organizing Committee, we are pleased to announce that the **APASL 2024 STC** "Liver Cirrhosis: Common and Rare Complications" will be held on November 1-2, 2024, in Almaty, Kazakhstan

This conference will serve as a platform for the exchange of cutting-edge knowledge and experience in all aspects of the development and progression of liver cirrhosis of various etiologies with a wide range of complications, as well as modern methods of their correction and control. The event is expected to bring together up to 500 participants from various countries

We are excited to welcome you to Almaty, a city that combines modern conveniences with a rich historical heritage. Located in the heart of Eurasia, Kazakhstan offers unique opportunities for travel and exploration. The country's natural beauty is magnificent, and the hospitality of its people is renowned far beyond its borders

Information about the **APASL 2024 STC** event in Almaty will be updated on this website:

**Alexander Nersesov**

President of Kazakh Association  
for the Study of the Liver

We look forward to seeing you  
in beautiful Almaty

With best regards,  
Presidents of APASL 2024 STC

**Hasmik Ghazianian**

President of Armenian Association  
for the Study of the Liver
